AUTOFLO

GOOSENECK-GLOW

ENGINEERED TO BE BETTER

MAINS POWER SENSOR TAP - DECK MOUNTED

The Australian designed and manufactured, **Autoflo Gooseneck-Glow** Mains Power Sensor Tap delivers pre-mixed water for hand washing applications, particularly in the food service, public facilities, hospitality, health and recreation industries and any application where a striking bathroom feature is as important as cross-contamination prevention and water savings.
The contemporary form is complemented with a host of features ensuring consistent performance. The intelligent sensor which self-ranges to its environment, controls maximum flow time, delivers the hygienic self-flush every 24 hours for bacteria control are just some of the features that set the **Autoflo Gooseneck-Glow** Mains Power Sensor Tap apart from other similar products on the market.

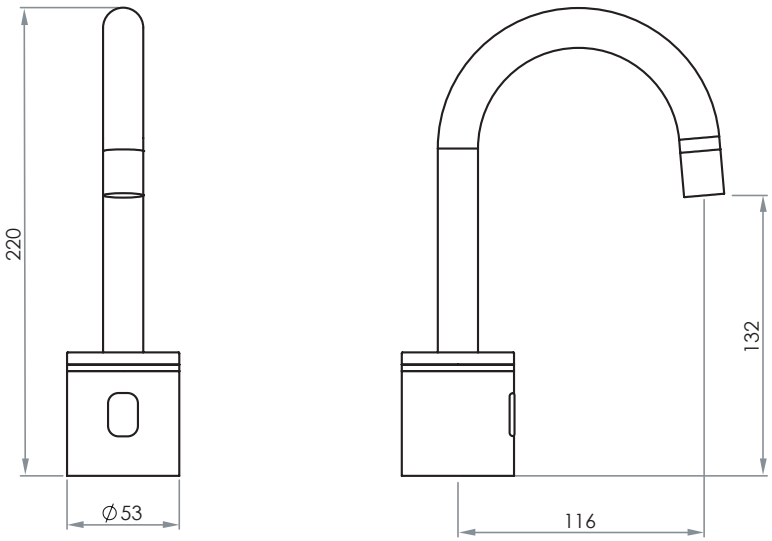

FEATURES

- Infra-red Sensor self-ranging
- Designed for multiple tap installations from one power source
- Illuminated light ring creates unique bathroom ambience
- Simple installation
- Bacteria Preventing Self Flush every 24 hrs
- Dual stage water filters with removable basket to avoid solenoid blockages
- Optional remote control for adjustment from factory settings
